Together we move South Africa forward

## GOVERNMENT MESSAGES OF THE DAY

### GREEN BOOK

- The Green Book is a state-of-the-art online climate risk and adaption tool, launched by CSIR.
- Its focus is to assist decision makers in the local government sphere to better understand the consequences of climate change and how to respond.
- The ultimate goal is to contribute to resilient, sustainable and liveable human settlement through climate change adaption.
- The Green Book forecasts to the year 2050 by projecting human settlement growth combined with quantitative, scientific evidence of the impact that climate change will have on South African towns and cities.

### STATUS OF WOMEN

- The spotlight at the UN Commission Status of Women will be on improving social protection & identifying policy actions critical to propel gender equality & transform women's lives.
- The revolution of technology must be used to benefit the world's poor and especially women to attain gender equality.
- The economic participation of women and prosperity are interlinked and cannot be denied as it is critical to improve economies and stability.
- Minister Dlamini will present the country's report during the sitting.

### GOVT ACHIEVEMENTS 2014 - 2019: SAPS

- The White Paper on Policing has been developed, and the consultation process is underway for the establishment of a single Police Service.
- The SAPS has moved to establish street committees to assist in the fight against crime.
- In 2017 the SAPS launched the National Trio Crimes Task Team with a view of ensuring integration of SAPS response to these crimes.
