

GOVERNMENT NEWS

Together we move South Africa forward

GOVERNMENT MESSAGES OF THE DAY

LOAD-SHEDDING

- Govt understands the frustration of South Africans as a result of constant power cuts and everything is being done to address the electricity situation.
- Load-shedding is a controlled process and is necessary to reduce strain on the national grid.
- We appeal to citizens and businesses to help reduce demand by switching off geysers and all non-essential lights and appliances.

ANTI-RACISM

- The National Action Plan (NAP) to Combat Racism is a vital tool to combat racist, sexist, homophobic, xenophobic and other discriminatory conduct and forms of prejudice in our country.
- We call on civil society, the media, academia, businesses, sporting and religious bodies to support the practical steps in the NAP aimed to combat and prevent discrimination and prejudice.
- We all have the responsibility to eliminate racism and all forms of prejudice in our homes, workplaces, public spaces, schools and places of worship.

GOVT ACHIEVEMENTS 2014- 2019- HUMAN RIGHTS

- Govt has worked tirelessly in promoting a culture of human rights including the promotion of indigenous languages and cultures.
- All South Africans without exception enjoy all rights such as the right to life, equality and human dignity.
- Our country recognises women as equal citizens, with equal rights and responsibilities.
